## *L Bar Sealer*

L Bar Sealer also known as L Type Sealer is a seal and cut machine which is ideal auxiliary equipment to work with shrink packaging machine and can be used separately as well, mainly used for cutting the shrink film in required sizes. The sealing & cutting control is using of instantaneous heating. Speedy sealing & cutting, electricity saving. Available to change the sealing time & cutting and temperature required upon the thickness of plastic film. The machine suitable to seal and cut PVC and POF Film.

L Bar Sealer is widely used in industries such as foodstuff, beverage, pharmacy, cosmetics and pesticide for containers with labels like glass bottle, plastic bottle, paper cup etc.

L Bar Sealer may combined with a shrink tunnel or heat gun to an L sealer to produce tightly shrink wrapped packages for shrink wrapping.

## *Semi-Automatic L Bar Sealer*

BSL Series semi-automatic L-seal cutting machine designed with automatic conveyor. BSL-5045L complete with a conveyor, product after sealing manually will be sent into the shrink packaging machine automatically. BSL Series create bags around products with PVC or POF film. BSL Series is economical and great for creating single or multi-pack packages for sale.

BSL Series semi-automatic L-seal cutting machine sealing & cutting control is using of instantaneous heating. Speedy sealing & cutting, electricity saving. Available to change the sealing time & cutting and temperature required upon the thickness of plastic film.

### TECHNICAL DATA

◀ <b>Model</b>	<b>BSL-5045L</b>
Voltage	1 Phase 240V
Total Power	1200W
Max. Packing Dimension	450mmL × 400mmW × 300 mmH
Max. Sealing Dimension	500mmL x 450mmW
Machine Structure	Metal with Powder Coated
Machine Weight	110 kgs
Machine Dimension	1400mmL × 700mmW × 985mmH
