### Container Liner Inlet Sealing Machine

Container Liner Inlet Sealing Machine also know as Liner Collar Sealer design for sealing Liner Inlet is available in different ranges according to the size and type of Collar. Container Liner Inlet Sealing Machine is commonly used to seal inlet with container liner, Jumbo bags, Bulk bags, Tote bags etc.

KST Series Container Liner Inlet Sealing Machine are equipped with desired modern specifications of digital temperature control, digital timer for sealing and cooling time control for perfect sealing. Machine Structure using aluminum profile for clean and easy maintenance.

#### TECHNICAL DATA

MODEL	KST-A200PR10
Sealing Diameter	200mm
Sealing Width	10mm
Sealing Jaw	Top & Bottom
Function	Direct Heat with Temperature Control
Pneumatic Air Source	5 - 6 kg/cm <sup>2</sup>
Rated Voltage	1 Phase 240V / 50Hz
Total Power	1000W
Production Rate	0 - 8 pcs / hour
Machine Structure	Aluminum Profile
Machine Dimension	1000mmL x 1150mmW x 1150mmH
Machine Weight	120kgs

\*\*Customized specifications are available.
