Vacuum Packaging Machine

Vacuum packing reduces atmospheric oxygen, limiting the growth of aerobic bacteria or fungi, and preventing the evaporation of volatile components. Products with vacuum packing can be prevented from oxidation, going mold, insects or getting damp, thus can be kept fresh for longer time.

Vacuum packaging machine is commonly used in food product and industrial to maintain fresh food's freshness or prolong product's shelf-life which suitable for solid, Powdery and liquid products such as fresh meat, seafood, pickled vegetables, agricultural products, tea leaves, herbs, powder, spices, bean paste and prepared foods...etc. For Industry such as electronic or medical use vacuum packing for Electronic parts, hardware products, medical instruments, medicine to prevent oxidization. In clothing, bedding and plastic industry vacuum packing greatly reduces the bulk items for more storage space.

DZ 400E - Medium Single Chamber

DZ400E Single Chamber Vacuum Packaging Machine is a plug in units which is easy to operate. DZ400E design with roller floor-standing design for easy moving. DZ400E have 2 sealing bar sealing length up to 400mm.

DZ400E Single Chamber Vacuum Packaging Machine are typically used for low-to-medium-volume packaging. These vacuum sealers are ideally suited for new business owner for restaurant, food processors and industrial manufacturers.

DZ400E Single Chamber Vacuum Packaging Machine is a plug in units which is easy to operate with setting program system, machine will finish the whole programs of vacuum extraction, sealing and cooling automatically. Fully stainless steel construction, features maximum durability and convenient cleaning. Transparent upper lid provides clear visibility for packaging operations.

TECHNICAL DATA

Model	DZ 400E
Voltage (V)	220
Motor Power (W)	750
Sealing Power (W)	500
Ultimate Vacuum Pressure (Kpa)	1
No. of Sealing Bar	2
Sealing Length (L X W) (mm)	400
Sealing Width (mm)	10
Control Panel	Timer
Chamber Dimension (L X W X H)(mm)	440 X 420 X 130
Vacuum Pump Rate (m ³ /h)	20
Chamber Structure	Aluminum Chamber
Machine Structure	Stainless Steel
Machine Dimension (L X W X H)(mm)	540 X 480 X 1010
Machine Weight(Kg)	110
