HC Series Vacuum Packaging Machine

Vacuum packing reduces atmospheric oxygen, limiting the growth of aerobic bacteria or fungi, and preventing the evaporation of volatile components. Products with vacuum packing can be prevented from oxidation, going mold, insects or getting damp, thus can be kept fresh for longer time.

Vacuum packaging machine is commonly used in food product and industrial to maintain fresh food's freshness or prolong product's shelf-life which suitable for solid, Powdery and liquid products such as fresh meat, seafood, pickled vegetables, agricultural products, tea leaves, herbs, powder, spices, bean paste and prepared foods...etc. For Industry such as electronic or medical use vacuum packing for Electronic parts, hardware products, medical instruments, medicine to prevent oxidization. In clothing, bedding and plastic industry vacuum packing greatly reduces the bulk items for more storage space.

HC 612 - Medium Single Chamber

HC612 Single Chamber Vacuum Packaging Machine equipped with Germany-BUSCH vacuum pump. HC612 design with roller floor-standing design for easy moving. HC612 have 2 sealing bar sealing length up to 420mm. HC612 are typically used for low-to-medium-volume packaging. These vacuum sealers are ideally suited for new business owner for restaurant, food processors and industrial manufacturers.

HC612 Single Chamber Vacuum Packaging Machine is easy to operate with setting program system, machine will finish the whole programs of vacuum extraction, sealing and cooling automatically. Fully stainless steel construction, features maximum durability and convenient cleaning. Transparent upper lid provides clear visibility for packaging operations.

HC Series Vacuum Packaging Machine are long lasting machineries built with selected high quality electronic components and therefore will require lesser maintenance.

TECHNICAL DATA

MODEL	HC 612
Voltage	1 Phase 240V
Vacuum Pump	1 HP 20m ³ /hr (Busch)
Packing Capacity	0-2 times/min
Chamber Dimension	480mmL x 450mmW x 140mmH
Sealing Length	420mm
Sealing Width	10
No. of Sealing Bar	2
Control Panel	Timer
Chamber Structure	Stainless Steel
Machine Structure	Stainless Steel
Machine Dimension	680mmL x 570mmW x 900mmH
Machine Weight	95Kg
