## Friction Feeder

Friction Feeder is a high speed conveyor complete with automatic feeder. The feeder automatically separated bundle of plastic bags or cards and transferred to the conveyor belt.

TTO Friction Feeder is special design to attach with TTO coding or marking facilitate which reduce workers and improve printing efficiency. Friction Feeder is widely used for product coding and printing purposes.

Friction Feeder can easily be integrated to any new or existing processes and common used in the fields of domestic electrical appliance, foodstuffs, general merchandise, medicine and chemical industries. Friction Feeder improve the production speed and efficiency, save time and labor saving.

## TTO Series Friction Feeder

TTO Series Friction Feeder is the perfect model friction feeder for the separation of flat products is ideal for the automatic feeding of most of material such as blister cards, seed packets, pouches, plastic bag and printing label.

TTO Series Friction Feeder has been developed especially for the medium performance area and use frequency drive motor for production stability and management complete with adjustable feeding speed. Machine design with PLC control extends to the friction rollers to ensure perfect feeding and print registration.

Optional: a. Counter b. Electro-Mechanical Multiple Product Detect Sensor c. Feeder Empty Auto Stop

### TECHNICAL DATA

<b>Model</b>		<b>KST-TTO-A400</b>
Rated Voltage		1 Phase 240V / 200W
Product Size	Length	50mm - 400mm
	Width	40mm - 420mm
Product Material		Plastic Bags / Label 40g - 300g
Conveyor Speed		0 - 80m / min
Controller		PLC + Touch Screen
Speed Control		Frequency Drive Motor
Air Compressor		0.3 - 0.5 Mpa
Machine Structure		Stainless Steel
Machine Dimension		1000mm x 700mm x 800mm
Machine Weight		100Kg
