Friction Feeder

Friction Feeder is a high speed conveyor complete with automatic feeder. The feeder automatically separated bundle of plastic bags or cards and transferred to the conveyor belt.

TTO Friction Feeder is special design to attach with TTO coding or marking facilitate which reduce workers and improve printing efficiency. Friction Feeder is widely used for product coding and printing purposes.

Friction Feeder can easily be integrated to any new or existing processes and common used in the fields of domestic electrical appliance, foodstuffs, general merchandise, medicine and chemical industries. Friction Feeder improve the production speed and efficiency, save time and labor saving.

TTO Series Friction Feeder

TTO Series Friction Feeder is the perfect model friction feeder for the separation of flat products is ideal for the automatic feeding of most of material such as blister cards, seed packets, pouches, plastic bag and printing label.

TTO Series Friction Feeder has been developed especially for the medium performance area and use frequency drive motor for production stability and management complete with adjustable feeding speed. Machine design with PLC control extends to the friction rollers to ensure perfect feeding and print registration.

Optional: a. Counter b. Electro-Mechanical Multiple Product Detect Sensor c. Feeder Empty Auto Stop

TECHNICAL DATA

Model		KST-TTO-B300
Rated Voltage		1 Phase 220V / 150W
Product Size	Length	60mm - 300mm
	Width	80mm - 330mm
	Thickness	0.1 - 0.2 mm
Conveyor Speed		0 - 50m / min
Speed Control		Frequency Drive Motor
Air Pressure		0.3 - 0.6 Mpa
Machine Structure		Stainless Steel
Machine Working Table Height		760mmH
Machine Dimension		1500mmL x 603mmW x 1060mmH
Machine Weight		85Kgs

** TTO Printer NOT INCLUDED.
