Semi Automatic Impulse Sealer

Semi Automatic Impulse Sealers are the next step up from Foot Sealers with providing fast sealing operation and excellent performance for high production jobs. Semi Automatic Impulse Sealers are recommended for a variety of other common thermoplastic materials including : Polyethylene, Polyurethane, Polyvinylchloride, Polyvinyl Alcohol, Saran, Nylon, bubble packs, padded mailers, foil, coated bags and etc.

Semi Automatic Impulse Sealers are easy to use (no warm-up time), economical (electricity is only used when the jaw is lowered during the sealing process), and safe (no component of these devices is always hot) which is ideal for sealing operations in packaging candies, food, stationery, drugs, tools, replacement parts and a variety of other products.

AI Series Semi Automatic Impulse Sealer

AI Series Semi Automatic Impulse Sealers is a table top sealing machine with single heat sealing jaw designed for sealing of thermoplastic films such as polyethylene and polypropylene. AI Series includes an electric foot pedal for manual operation.

450AI Semi Automatic Impulse Sealers with single bottom sealing jaw, sealing length of 450mm and 2mm sealing width. 450AI Semi Automatic Impulse Sealers controlled by electronic timers, once correct setting have been programmed, consistent seals and cooling are maintained automatically for perfect sealing quality.

TECHNICAL DATA

MODEL	450AI
Voltage	1 Phase 240V
Sealing Power	1200 W
Sealing Length	450 mm
Sealing Width	2 mm
Sealing Jaw	Bottom Only
Heat Time Setting	0 - 2 sec
Cooling Time Setting	0 - 4 sec
Machine Structure	Powder Coated Metal
Machine Dimension	520mmL x 520mmD x 200mmH
Machine Weight	21Kg
